## EDUCATION

**Computer Science | Bachelor's Degree:** Toronto Metropolitan University | Toronto, ON          Sep 2021 – May 2025

## WORK EXPERIENCE

**Salesforce Developer:** Momentum | Toronto, ON          May 2024 – Aug 2024
**Description**: Collaborated with senior developers and project managers to design and implement custom Salesforce solutions using Apex, Visualforce, and Lightning Components.

**Cloud Engineer Intern:** Deop Inc. | Toronto, ON          May 2023 – Aug 2023
**Description**: Contributed to the development, management and troubleshooting of AWS-based cloud solutions, enhancing system efficiency and reliability.

## PROJECTS

**TMU Marketplace  (Django & React)**          Jan 2024 – Apr 2024
**Description**: Developed an online Marketplace using Django for backend functionality and React for the user interface. TMU Marketplace enables TMU students to buy, sell, and exchange goods and services easily and securely.
**GitHub Link:** https://github.com/arifekrem/TMU_Marketplace_Django_React

**Payment_System_DBMS (Oracle & SQL & Java)**          Sep 2023 – Dec 2023
**Description**: Developed a Payment System - Database Management System on an Oracle database using SQL (SQL Developer), the system integrates with JDBC and features an intuitive UI developed in Java, tailored for HR managers. The app enables users to securely manage their digital funds, perform transactions, and view transaction history.
**GitHub Link:** https://github.com/arifekrem/Payment_System_DBMS

**E-Wallet App (Python & HTML)**          Jan 2023 – May 2023
**Description**: Developed an E-Wallet App using Python for backend functionality and HTML for the user interface. The app enables users to securely manage their digital funds, perform transactions, and view transaction history.
**GitHub Link:** https://github.com/arifekrem/Python_HTML_Banking_System

**CLI_Ecommerce_Platform (Java)**          Jan 2022 – May 2022
**Description**: Developed a Retail Management System using Java with a Command Line Interface (CLI), streamlining inventory management, sales tracking, and order processing for retail businesses.
**GitHub Link:** https://github.com/arifekrem/Java/tree/main/CLI_Ecommerce_Platform
